ARCAD Software Announces a 26 Percent Increase in Sales Revenue for 2006

Company consolidates its position in banking and insurance sectors; additional U.S. expansion and revenue growth projected in 2007.

ANNECY, FRANCE, and PETERBOROUGH, NH – March 19, 2007 – ARCAD Software, developer of software management solutions in and around the IBM System i, announces a 26 percent increase in sales revenue for fiscal year 2006, ending December 31, 2006.

In 2006, ARCAD Software expanded its activities in Europe and the United States, adding more than 15 staff members, mainly in support and R & D. With new customers in the United States, Europe, and Australia, ARCAD consolidated its position as a worldwide supplier of software management solutions for the IBM System i.

ARCAD's software solutions are ideally suited for companies that want to increase reliability, modernize business applications, and automate application deployment in heterogeneous environments that include an IBM System i. ARCAD software creates a connection between development and production applications that makes it possible for companies to make adjustments to applications running in an enterprise environment.

In 2006, ARCAD particularly reinforced its positions in the banking and insurance sectors, which represent approximately half of its customers (52%). ARCAD Software helps companies in these sectors open their enterprise application in the System i environment through Service-Oriented Architecture (SOA). For the fiscal year 2007, ARCAD Software anticipates revenue growth of 35 percent, with a special focus on continued expansion in North America in order to achieve these goals.
